

LET SCOPE HELP YOU FINISH YOUR DEGREE

TO UNLOCK YOUR NEXT IMPOSSIBLE

Did you pursue a degree, but life happened and you had to put your degree on pause? You may have started your degree a few years ago or a few decades ago, but you find yourself wishing you could finish. You are not alone. Pausing your degree due to life circumstances, an expanding family, or financial constraints is a common challenge adult learners face. Often, they wonder, “How could I ever go back to school now?” With SCOPE, we make it possible for adult learners to complete what they started, even when finishing feels impossible!

DOES THE THOUGHT OF FINISHING FEEL OVERWHELMING AND **IMPOSSIBLE?**

DEGREES THROUGH SCOPE ARE **FLEXIBLE.**

Because SCOPE courses are completely online, you can complete coursework on your schedule —any time of day or night. There is no requirement to log in at a certain time. SCOPE’s flexibility allows you to fit your courses around your busy schedule.

While course assignments have to be completed within a week, they are not attached to a specific daily schedule. You can even work ahead if you’d like as course work is shared in two-week increments. Keep in mind that college-level courses take work (our students spend 10 to 20 hours per week), but this added flexibility makes it possible to balance school with life.

Being a single mom, it seemed really overwhelming having to figure out childcare and attending classes. It was important to me to find something that was completely online.

~ GRACE SIMONELLI

DEGREES THROUGH SCOPE ARE AFFORDABLE.

Compared with other programs, SCOPE offers one of the most affordable ways to finish your degree! With no application fee to start, you only pay when you register. Our programs are some of the most affordable at only \$450 per credit hour.

Student loans are readily available for most adult learners, and our financial aid advisors can point you to the right place to start. Your employer may also offer reimbursement options.

I was able to do [the RN to BSN program one] class at a time every seven weeks, and it worked out very, very well to be a working nurse and be able to further my degree at the same time. - DEBORAH ROY

DEGREES THROUGH SCOPE ARE PERSONALIZED.

SCOPE degrees can be completed at any pace. You may be able to take only one class at a time, or several. When life interrupts your schooling, after completing a course, we offer the option to pause and resume your program later.

Typically, our bachelor's degree completion programs require 120 credits. At least 45 credits are required to apply. Our transfer-friendly approach allows you to complete your degree with many credits already met through prior coursework or prior learning assessment.

DEGREES THROUGH SCOPE COME WITH A GUIDE.

Many times, figuring out how to start is the hardest part. When you begin with SCOPE, we connect you with a Pathway Partner who guides you each step of the way. Pathway partners also come alongside you to assist you. They help you see the path forward, monitor your progress, and help you know what to do next.

1. Stobierski, T. (2020, June 2). "Average Salary by Education Level." Northeastern University. <https://www.northeastern.edu/bachelors-completion/news/average-salary-by-education-level/>

\$25K

The average salary of a bachelor's degree holder is **\$25k higher** than that of someone with just a high school diploma.¹

UNLOCK YOUR NEXT IMPOSSIBLE.

Yes, it is possible to complete your degree regardless of your situation! By completing, you will increase your marketability or career advancement, learn new life skills and feel confident you have achieved what you set out to finish. To get started, talk with a Pathway Partner today!
